

TAILORED MANTELS

FOR HEARTH AND HOME . . .

LET THERE BE THE LASTING BEAUTY OF MOSAIC FAIENCE TILE MANTELS

FIRE-WORSHIPPERS we all are in some degree or another. For cooking food, for warmth and for cheerfulness, the home fire since before the dawn of history, has drawn deeply on man's affections.

Even with the advent of modern heating methods, the hearth still retains its place as the symbolic center of home life. Custom hallowed by the centuries decrees it as the family gathering spot and as the place whence flows the welcome of hospitality.

Surely then the setting of the open fire becomes a matter of importance — the fireplace and mantel. In ancestral homes these have always been outstanding examples of the architecture of the period and have reflected the character and tastes of the owner.

Mosaic Faience Tiles are ideal material for distinctive mantels

THE MOSAIC TILE COMPANY :: ZANESVILLE, OHIO
New York Chicago St. Louis Los Angeles San Francisco

SO much of tradition and charm cling to the fireplace that it changes the house into a home. The atmosphere it imparts of friendliness, solidity, worth, culture, and cheer makes it truly indispensable to modern interior decorative schemes. Never has the distinctive mantel and fireplace been so much in vogue as at present.

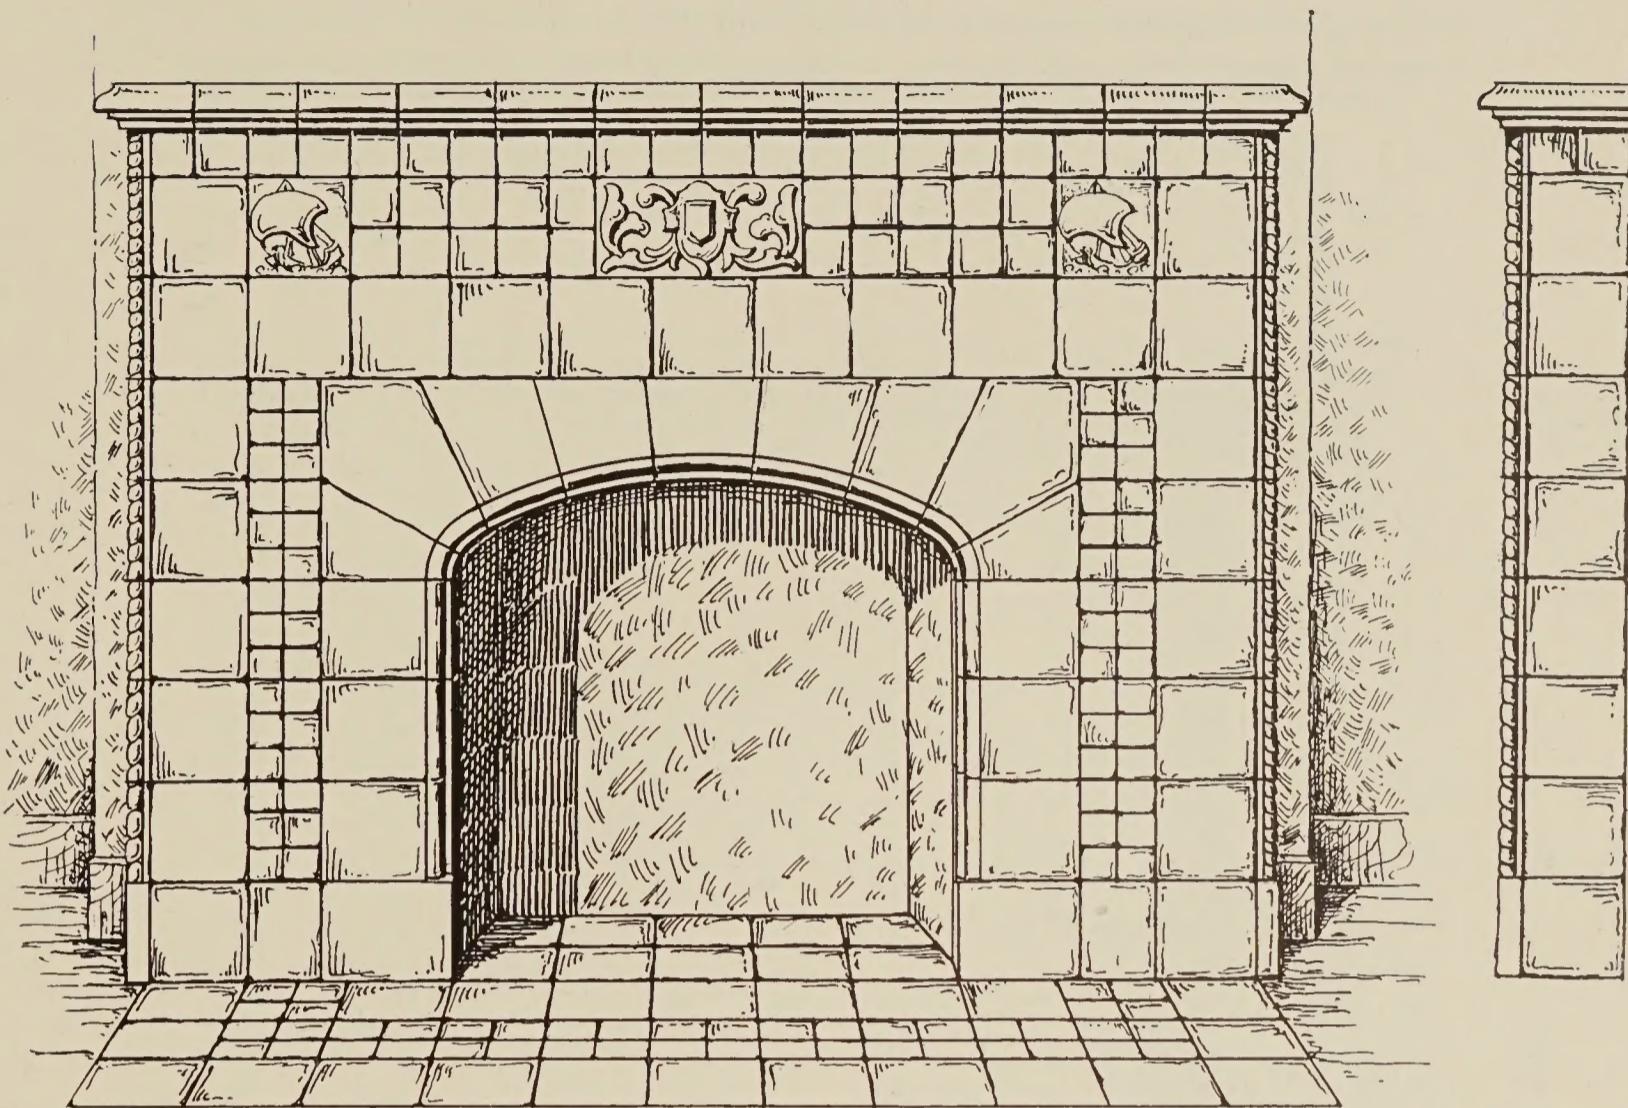

Modern architecture is assigning to the hearth a more important place than ever before and in Mosaic Faience Tiles has found a material eminently suitable for its construction. The wonderfully rich colors of Mosaic Faience Tiles and their variety of shapes, sizes and decorations afford the greatest scope in the creation of noteworthy mantels and fireplaces.

THE practical value of Mosaic Faience Tiles for mantels and fireplaces, as well as for other uses in the home, apartments and larger buildings, is well known. Baked to extreme hardness by the intense heat of fire itself they are naturally appropriate for the hearth. They endure indefinitely through the years.

The cost of installation is also the ultimate cost. There is no question of redecoration or repairs. They remain untouched by time, wear, weather, cold and heat. They are impervious to stains and moisture and are always easily kept in their original brightness.

THE mantel designs in Mosaic Faience Tiles illustrated in the following pages are standard and can, therefore, be assembled and shipped on short notice. Any of the mantels may be specified by number, with a note of the color scheme desired. Most of the mantels shown can be made smaller or larger without materially changing the design.

While it is believed the variety of these designs will meet the needs of almost every type of interior, our design department is ready to prepare special designs when desired, or to execute mantels from the architect's own designs. Orders for mantels are filled with unusual care, and extreme pains are taken with the shading and sizing of the tiles.

Keep the home fires burning, while
Your hearts are yearning,
Tho' your lads are far away they
Dream of home.

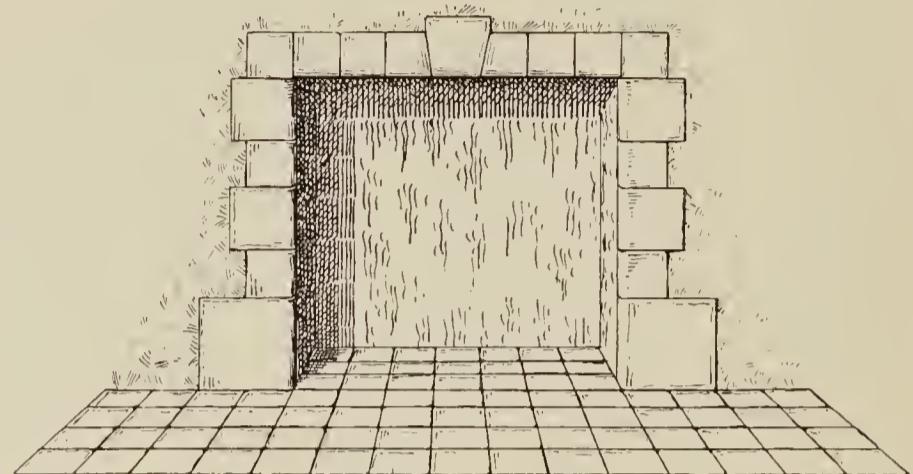

—Mrs. Lena G. Ford

FIREPLACE ARCHES RICHLY DECORATIVE

A variety of standard Fireplace Arches is to be obtained in Mosaic Faience Tiles. Around them as the key unit in the plan beautiful Mantels may

be constructed. A broad range of colors is available for carrying them out. Individual designs are also made according to specifications.

MANTELS FOR ANY TYPE OF HOME DECORATION

The designs for mantels shown on the preceding pages of this book have proven to be of wide appeal. The artistry evident in their creation and the variety of treatment reflected by them, make it possible to find one that is appropriate for the home or other building under consideration, whatever may be the type or period of decoration.

Variety of Styles

The styles of mantels offered by Mosaic Tile designers include the Tudor, Georgian, Spanish, Renaissance and other types, as well as the Modernistic. This wide choice is particularly helpful to anyone working out a decorative plan.

Often it happens that the architect, builder or owner wishes a mantel

created according to his own desires and specifications. This can be readily done with tile, for tile is more versatile than any other material. The extremely wide scope of sizes, shapes and colors of tile permits individual treatments to be carried out with the greatest freedom.

Mosaic Design Service

We are always glad to make up mantels from designs which are sent to us. Or our Art and Design Department will prepare special designs from data and specifications furnished to us. This is a service we freely extend to all who are interested in fireplaces of distinctive charm and permanent beauty.

To obtain any of the mantels illustrated in this book, or to have one made to your own design, get in touch with your tile contractor, or our nearest office.

MOSAIC

The name "Mosaic" is applied to all tiles made exclusively by The Mosaic Tile Company. This name is stamped on all Mosaic Products, which include ceramic mosaics, vitreous, semi-vitreous, wall, and faience tiles, as well as "All-Tile" bathroom accessories and trims to match. The word "Mosaic" should be used in writing tile specifications.
